---

Dear Families,

I love Northshore Christian Academy! It has been an honor to serve Northshore Christian Academy families since 2004. We're not just another school, we are a place where students are nurtured and mentored by caring teachers. Our teachers love their students, pour their talents and training into each student to impart learning and, most of all, challenge students to be all that God has called them to be. We seek to be a family working together investing in your children, our students.

My years growing up in Christian schools combined with serving as a teacher and administrator in Christian education since 1989 has given me a special love and vision for children. In Bible College my passion for a career serving children and their families began to become a reality. After completing a bachelor's degree in Religious Education, I attended Northwest University where I earned a BA in Elementary Education. After teaching in a Christian school for 7 years, I was honored to become their principal. During this time, I attended Seattle Pacific University where I completed my Masters in Education and School Leadership.

My goal at NCA is to continue impacting students for Christ and empowering them to attain the highest calling for their lives: a purpose and a hope in Christ for a bright future.

I would love the opportunity to meet you and share with you the full picture of why Northshore Christian Academy is such a special school.

Sincerely,

*Mrs. Walla*

Mrs. Esther Walla  
Vice Principal
