September, 2011

Dear Northshore Families,

Thank you for the warm welcome to Northshore!

I am proud and pleased to join such a vibrant and effective school community as Northshore Christian Academy. The light of Christ is evident in the lives all I encounter on campus. I am looking forward to seeing what God will accomplish in the hearts and minds of our precious children. The primary aim of my life is to cherish the gift of children, see them transformed by truth and lead others to do the same. Northshore is an exceptional setting for this work.

I have worked in education for 17 years. I spent 12 years in the classroom and 5 years in administration. Most recently, I served as the head principal of Tianjin International School (TIS) in Tianjin China. TIS is a Christian school that has served expatriate children for over 25 years in the port city of Beijing.

My professional passion lies in the work of 21st century learning. In order for our children to grow and influence their world for Christ, it is critical that they become proficient 'digital' citizens. Therefore, I am looking forward to leading the Science, Technology, Engineering, and Mathematic (STEM) program at Northshore.

Please feel free to stop my office, send an email, or give me a call anytime. I am looking forward to meeting you all and establishing a close partnership for the good of your children's learning.

Warmly,

Jeff Culp
Vice Principal of 3rd-5th
