

WHAT IS HAPPENING IN COMPUTER CLASSES THIS MONTH?

4th Grade: Fourth grade has started off the year with some typing practice. They are beginning to learn about Windows 7 and will start reviewing Word 2010 next week.

5th Grade: Fifth grade has started off the year with some typing practice and review of Windows 7. They are now working in Word 2010.

6th Grade: Sixth grade has reviewed Publisher 2010 and is working in PowerPoint 2010 to create custom animations.

Photoshop: We have looked at how professionals edit pictures for magazines, learned many of the tools on the tool bar, and are currently working with layers.

Programming: We have learned the basics of game design, the use of variables to track information, and have created a basic working maze game.
