

WHAT IS HAPPENING IN COMPUTER CLASSES THIS MONTH?

1st Grade: For the next month, first grade will be using the KidPix program to create images of specific Bible stories. Included among the images will be: Noah's Ark, Moses and the Red Sea, David & Goliath and many more!

2nd Grade: Will begin to learn how to type using home row keys by using an NCA designed typing program.

3rd Grade: Will continue to practice their typing skills through weekly typing practice and assignments.

4th Grade: Fourth grade is working on advanced features in PowerPoint using custom animations to create several scenes on different slides.

5th Grade: Fifth grade is will be learning Movie Maker and the basics of creating a video, with transitions, sound, recording sound, and trimming video.

6th Grade: Sixth grade is working in PowerPoint to create an original story with transitions, sound, and custom animations. They will begin review of Excel keeping track of sales for a coffee shop.

Photoshop: Students are working on a review project made up of several pictures they will create using tools they have learned over the semester so far.

Web Page: Students are working on Adobe Flash this month. They are learning basic animations, drawing, layers, tweens, timeline, and some simple actionscript.
