

WHAT IS HAPPENING IN COMPUTER CLASSES THIS MONTH?

Office 2010

4th Grade: Fourth grade is working on their state reports. They are using Publisher right now to create a brochure of their state. They are learning about formatting and searching for information.

Office 2010

5th Grade: Fifth grade has started an Excel project where they keep track of a city for population growth, spending, and other statistics. They will use Publisher at the end to create a poster promoting their city with graphs included.

Office 2010

6th Grade: Sixth grade has just finished a review of Excel tracking expenses. They are finishing a final project to review PowerPoint, Word, and Publisher.

Photoshop: Students are working on a final project combing everything they have learned over the course of the year. They are using tools like layers, burning, cloning, filters, and brushes.

Programming: Students are working on platform games. We are talking about gravity, collisions, and using variables to position characters in rooms.
